## **CARLIN GOLD CORPORATION**

(An Exploration Stage Company)

Notes to Consolidated Financial Statements

For the three and six months ended June 30, 2009

(Unaudited – Prepared by Management)

---

### **1. NATURE OF OPERATIONS AND GOING-CONCERN**

Carlin Gold Corporation (the “Company”) was incorporated under the Canada *Business Corporations Act* and trades on the TSX Venture Exchange.

The Company is in the business of acquiring, exploring and developing mineral properties in Nevada, and has not yet determined whether its properties contain ore reserves that are economically recoverable. The Company has not generated any revenue since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a going-concern basis, which assumes that the Company will be able to continue operations, and realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. These financial statements do not include any adjustments to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue as a going-concern.

Several adverse conditions cast substantial doubt on the validity of this assumption. The Company has incurred significant operating losses over the past fiscal years, is currently unable to self-finance operations, has working capital of \$989,663 (June 30, 2008 - \$1,600,071), an accumulated deficit of \$4,778,947 (June 30, 2008 - \$4,237,711), limited resources, no source of operating cash flow and no assurances that sufficient funding will be available to conduct further exploration and development of its mineral interests.

The application of the going-concern concept is dependent upon the Company’s ability to generate future profitable operations and receive continued financial support from its creditors and shareholders. Management is actively seeking to raise the necessary capital to meet its funding requirements and has undertaken available cost cutting measures. There can be no assurance that management’s plan will be successful.

The business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral interests is dependent on several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties, and future profitable production or proceeds from disposition of mineral interests.

### **2. SIGNIFICANT ACCOUNTING POLICIES**

The Company prepares its consolidated financial statements in accordance with Canadian generally accepted accounting principles. The following is a summary of significant accounting policies used in the preparation of these consolidated financial statements:

#### **(a) Basis of Consolidation**

These consolidated financial statements include the accounts of the Company’s wholly-owned subsidiaries, as follows:

- Toquima Minerals Corp. (British Columbia) (“TQM”)
- Toquima Minerals US Inc. (Nevada)
- Carlin Gold US Inc. (Nevada)
- Aurelius Financial Corp. (B.V.I.)
- Yunnan Carlin Mining Corp. (China) (“Yunnan Carlin”).

**CARLIN GOLD CORPORATION**

(An Exploration Stage Company)

Notes to Consolidated Financial Statements

For the three and six months ended June 30, 2009

(Unaudited – Prepared by Management)

On December 31, 2007 Toquima Minerals US Inc. merged with Carlin Gold US Inc., with Carlin Gold US Inc. being the continuing corporate entity.

All significant intercompany balances and transactions have been eliminated upon consolidation.

**(b) Basis of Presentation**

These interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“GAAP”) for interim financial statements and follow the same accounting policies and methods of application as the most recent annual financial statements for the year ended December 31, 2008. These interim financial statements do not contain all disclosures required by Canadian GAAP and accordingly should be read in conjunction with the audited 2008 annual financial statements and the notes thereto.

**(c) Recent Accounting Pronouncements**

*Mining Exploration Costs* - On March 27, 2009, the Canadian Institute for Chartered Accountants approved EIC-174, “Mining Exploration Costs”. The EIC provides guidance on capitalization of exploration costs related to mining properties in particular and on impairment of long-lived assets in general. The Company has applied this new abstract for the six months ended June 30, 2009, resulting in no impact on its financial statements.

**3. MINERAL PROPERTY INTERESTS**

The Company is in the process of exploring its mineral property interests and has not yet determined whether these properties contain ore reserves that are economically recoverable.

**(a) Nevada mineral property interests**

The following is a summary of the Company’s principal property interests, located in Nevada, USA.

	Pine Grove	Willow Creek	Currant Creek	Cortez Summit	Whisky Canyon	JDS	Total
Balance, December 31, 2008	\$ 387,088	\$ 472,579	\$ 128,496	\$ 119,253	\$ 272,325	\$ 16,122	\$ 1,395,863

**CARLIN GOLD CORPORATION**

(An Exploration Stage Company)

Notes to Consolidated Financial Statements

For the three and six months ended June 30, 2009

(Unaudited – Prepared by Management)

**(i) Pine Grove Property**

Romarco Minerals Inc. did not meet its commitment of completing 3,500 feet of drilling in the Rockland Mine area by December 31, 2008, and accordingly, the Company entered into a settlement agreement with Romarco on March 13, 2009, to terminate the Exploration and Option to Enter Joint Venture Agreement. The Company received a combination of cash and reclamation bonds amounting to \$387,088 (US\$306,896) in settlement from Romarco. An amount of \$305,860 (US\$242,496) was received in cash as well as reclamation bonds valued at \$77,679 (US\$64,400).

**(ii) Willow Creek and Currant Creek Properties**

On January 15, 2009 the Company made a payment of US\$25,000 to maintain its option on the Willow Creek property, and obtained a deferral until January 15, 2010 for the remaining US\$10,000 that was due under the original agreement.

**(iii) Whisky Canyon Property (formerly called Betty O'Neal Property)**

The Company amended the terms of its agreement on the Betty O'Neal property, such that in consideration for a US\$20,000 payment made in March 2009 the US\$35,000 payment due on August 27, 2009 is now deferred until August 27, 2010, and the drilling commitment of 6,000 ft. is reduced to 4,000 ft. and extended by one year to August 27, 2010.

On two additional agreements, in March 2009 the Company paid US\$20,000 to defer a July 23, 2009 US\$40,000 payment for a year to July 23, 2010, and to defer a September 1, 2009 US\$25,000 payment for a year to September 1, 2010. Further, starting on the 2010 anniversary dates, the total annual payments for these two agreements will be capped at US\$50,000. The capped payment replaces an annual payment schedule which would have ultimately escalated to a total of US\$115,000 for the two agreements.

**(b) Segregated Cash**

The amount represents the remaining US dollar and Renminbi cash held in Chinese bank accounts that are being used to fund general exploration and investigation of potential new projects in China.

**4. Marketable Securities**

At June 30, 2009 the Company owned the following marketable securities:

	Number of Shares		Book Value		Fair Value
Piedmont Mining Co.	300,000	\$	49,951	\$	12,000
Romarco Minerals Inc.	15,000		4,143		12,000

In Escrow	300,000		-		-
		\$	54,094	\$	313,000

At the beginning of the year the Company owned 227,600 shares of Romarco Minerals Inc., of which 212,600 shares were sold during the period for cash proceeds of \$65,722.

**CARLIN GOLD CORPORATION**

(An Exploration Stage Company)

Notes to Consolidated Financial Statements

For the three and six months ended June 30, 2009

(Unaudited – Prepared by Management)

The Company's Constantine shares are subject to an escrow agreement. At June 30, 2009, 1,700,000 of the above Constantine shares had been released from escrow and were free-trading. The remaining 300,000 Constantine shares in escrow will be released in July 2009. Shares held in escrow are not tradable and, accordingly, adjusted from cost to fair value upon release from escrow.

**5. Share Capital****(a) Details of Share Capital are as follows:**

Authorized: unlimited common shares without par value

**(b) Warrants**

An amount of 3,260,000 warrants with an exercise price of \$0.30 expired on April 12, 2009. There were no warrants outstanding at June 30, 2009.

**(c) Escrow Shares**

At June 30, 2009, 846,236 Company shares were held in escrow subject to an escrow agreement, which are to be released in July 2009.

**(d) Share Purchase Options**

The Company has established a share purchase option plan whereby the board of directors may, from time to time, grant options to directors, officers, employees or consultants. Options granted must be exercised no later than five years from the date of grant or such lesser period as determined by the Company's board of directors. The exercise price of an option is not less than the closing price of the stock on the last trading day preceding the grant date. Options vest 25% on the grant date and 12.5% each six months thereafter until fully vested. The associated stock-based compensation expense is recognized on a straight-line basis over the vesting period. The maximum number of options to be granted under this plan is 3,950,000 options.

Stock option transactions and the number of stock options outstanding are summarized as follows:

	Number of Options	Weighted Average Exercise Price
Outstanding, beginning of year	3,500,000	\$ 0.16
Outstanding, June 30, 2009	3,500,000	\$ 0.16

A summary of the Company's options as at June 30, 2009 is as follows:

Expiry Date	Weighted Average Exercise Price	Options Outstanding	Options Exercisable
November 2, 2009	\$ 0.13	2,100,000	2,100,000

## Company Overview and Outlook

Carlin’s did not conduct any field exploration activities in the 6 months ended June 30, 2009, and concentrated instead on further consolidating its mineral properties and negotiating deferrals on the Willow Creek/Currant Creek properties and the on the Whisky Canyon property.

In March 2009 the Company reached a settlement agreement with Romarco Minerals Inc. (“Romarco”), the option holder on the Company’s Pine Grove project, with respect to a termination of Romarco’s option agreement. As part of the settlement Carlin received a combination of \$383,539 in cash and bonds from Romarco in March 2009. Subsequent to Romarco’s termination, Carlin terminated its interest in the Pine Grove property and wrote off its remaining investment in the property.

The Company recognizes the serious difficulties that have impacted the world’s financial markets during the past year, and the particular challenges that these conditions have presented to exploration stage companies. We are assessing ways to proceed that will allow us to advance our projects while at the same time preserving funds to ensure that we can continue our business. The recent deferral agreements on the Whisky Canyon property are a result of these efforts (see Nevada Exploration Projects below).

No field work was conducted on the Company’s properties in the first six months of the year, however, the Company is planning a limited exploration programs on two properties in 2009. On the Cortez Summit property the Company is planning on conducting additional geochemistry surveys to aid in drill target identification. On the Whisky Canyon property we are planning a 4,000 foot drill program in the fall of 2009, depending on drill rig availability. This program will concentrate on testing the Yankee target on the property.

## Cash Position of the Company

The Company’s total cash position consisting of cash at June 30, 2009, was \$681,610 (2008 - \$1,019,865). Our current cash balance is projected to be sufficient to meet our corporate and exploration obligations for

the current year. Additional financing may be required to complete future mineral exploration programs. Our working capital position at June 30, 2009 was \$989,663 (2008 - \$1,600,071).

## **Nevada Exploration Projects**

The Company currently controls four properties in Nevada through either lease agreements with property owners or direct ownership of unpatented mining claims. A joint venture exploration partner is earning an interest in one of Carlin's projects. In addition to advancing the exploration programs on the existing property portfolio, the Company is also evaluating additional project opportunities. The principal projects are described below.

### Whisky Canyon Property, Lander County

In March 2009 the Company negotiated deferral agreements on three of the underlying agreements on the Whisky Canyon project. On the Betty O'Neal patented claims, the Company paid US\$20,000 to defer the US\$35,000 payment due August 27, 2009 out to August 27, 2010. Carlin also was able to defer the drilling commitment on the Betty O'Neal property due August 27, 2009 out to August 27, 2010, in addition to reducing the commitment from 6,000 ft. to 4,000 ft.

On two additional agreements, the Company paid US\$20,000 to defer a July 23, 2009 US\$40,000 payment for a year to July 23, 2010, and to defer a September 1, 2009 US\$25,000 payment for a year to September 1, 2010. Further, starting on the 2010 anniversary dates, the total annual payments for these two agreements will be capped at US\$50,000. The capped payment replaces the current annual payment schedule which would have ultimately escalated to a total of US\$115,000 for the two agreements.

The deferral agreements save Carlin US\$60,000 in 2009 payments, and also defer and take an estimated US\$50,000-\$60,000 off our drilling commitment with the Betty O'Neal owners. This will also give the Company more flexibility in carrying out the exploration program.

### Cortez Summit, Eureka County

The Company has completed rock chip and soil sampling, geologic mapping and a gravity survey of the property. Gold values up to 0.447 g/t and anomalous Carlin-style pathfinder elements were encountered in the rock chip sampling. The gravity program was designed to help identify important structural features that could represent potential drill targets. Preliminary Interpretation of the gravity results suggests a number of significant structures for further evaluation. 2009 field work will be directed at defining drill targets, and will consist of more detailed surface geochemical sampling and possibly additional geophysical work to follow up the gravity survey results. Results will then be evaluated and integrated with the existing data, and a decision will be made on the optimal way to proceed with drill target definition.

### Willow Creek, Elko County

On January 15, 2009 the Company made a payment of US\$25,000 to maintain its option on the Willow Creek property, and obtained a deferral until January 15, 2010 for the remaining US\$10,000 that was due under the original agreement.

### Pine Grove, Lyon County

In January 2009, Romarco terminated the Exploration and Option to Enter Joint Venture Agreement. Romarco and Carlin signed a Settlement and Release Agreement in March 2009, whereby Romarco agreed to pay US\$242,496 cash (received during the quarter) and transfer US\$64,400 in bonds posted with the US Forest Service to Carlin (completed). The payment and bond transfers satisfied Romarco's obligations provided in the Exploration and Option to Enter Joint Venture Agreement. Subsequent to Romarco's termination, the Company terminated its interest in the underlying Mining Lease and Option to Purchase Agreement on the property.

## Yunnan China Earn-in Funds

The Company maintained an office in Kunming, China while considering and investigating other potential opportunities in China. In July 2009 the Company closed its office and transferred the remaining funds in China back to Canada. At June 30, 2009 the Company had \$43,952 (2008 - \$56,420) in segregated funds to Yunnan Carlin Mining Corporation, representing the remaining cash that was advanced four years ago for the Yunnan earn-in.

## **Results of Operations**

The Company's consolidated net loss for the period ended June 30, 2009 was \$123,477 (2008 - \$413,729).

In the six months ended June 30, 2009, the Company incurred deferred costs of \$92,507 (2008 - \$112,753) for mineral property expenditures (before recoveries). These payments included US\$40,000 paid in order to defer upcoming option payments and drilling commitments on the Whisky Canyon property. These amounts were offset by a US\$242,496 cash payment received from Romarco in consideration of the Company agreeing to the termination of Romarco's agreement on the Pine Grove property. As part of the same termination agreement, the Company also received US\$64,400 worth of reclamation bonds from Romarco, which were transferred to the Company in April 2009.

The Company recorded \$158,959 of other comprehensive income for the period ended June 30, 2009 (2008 - \$81,763), due to an increase in the value of its equity holdings in marketable securities since the beginning of 2009. Carlin owns 2,000,000 shares of Constantine Metal Resources Ltd. of which 1,700,000 were free-trading and 700,000 were held in escrow at June 30, 2009. The final 300,000 shares will be released from escrow to the Company in July 2009.

During the period, Carlin sold 212,600 shares of Romarco Minerals Inc. from its Marketable Securities holdings, for net cash proceeds of \$65,722, which further improved the Company's cash position. Carlin recorded a \$12,745 gain on the sale of the Romarco shares, based on their book value of \$52,976

Operating costs before other items were \$97,908 in the period, compared with 2008 of \$183,084. General and administrative expenses for the Company continued to remain at relatively low levels, consistent with the preceding year. Non-cash expense for stock option compensation for the period was \$519 compared to \$23,391 for the previous year.

## Summary of Quarterly Results

The following is a summary of certain consolidated financial information concerning the Company for each of the last eight quarters:

<b>Quarter ended</b>	<b>Income (Loss)</b>	<b>Income (Loss) per share</b>
June 30, 2009	\$(89,888)	\$(0.01)
March 31, 2009	(33,589)	(0.01)
December 31, 2008	(132,759)	(0.01)
September, 2008	(411,845)	(0.01)
June 30, 2008	(348,096)	(0.01)
March 31, 2008	(16,888)	(0.01)
December 31, 2007	229,166	0.01
September 30, 2007	(1,287,715)	(0.03)

The Company's operating costs for the second quarter of 2009 were \$43,752, compared to \$112,044 for the corresponding quarter last year, due to lower management and consulting expenses in 2009. The Company incurred expenditures of only \$2,473 on mineral properties, as no field work was conducted on the Company's properties during the quarter.
